REPORT:

7/27/18
09:17 CCHS-HMP was notified via page by the Contra Costa County Communication Center of an incident in Brentwood, CA.
09:18 John Pham of CCHS-HMP talked with Capt. Steve Aubert of ECCFPD by phone. There was an electronic waste fire outside of an electronic recycling facility. The fire occurred at 08:50 and was put out. CCHS-HMP was being requested to assist in assessing the fire water impact on the storm drain system, and appropriate cleanup measures.
09:56 Ian Williams and Maria Duazo departed the CCHS-HMP office in HM1.
10:30 HM1 arrived on scene. CCHS-HMP met with Capt. Steve Aubert of ECCFPD and Jason Fish of Brentwood PD. The fire occurred within cardboard shipping containers on pallets being used to sort an electronic waste pick up. The fire occurred on a concrete slab outdoors. Approximately 5 of the 10 pallets of electronics were at least partially burned. Brentwood Public Works put the fire out with approximately 300 to 700 gallons of water.
10:40 CCHS-HMP inspected the burned electronics. Keyboards, Monitors, batteries, outlet plugins and computer housings were observed. The team followed the runoff flow of water used to put the fire out. The water and debris had flowed to the North curb of the driveway, and into a planted strip of landscaping. The flow of water and ash had traveled at most approximately 40 feet West. The water and debris did not enter the closest storm drain, located 200 feet West of the fire.
11:00 CCHS-HMP met with the Property owner, Glen McCauley, and the responsible party, Louis Sarkis of Blue Star Company Inc (Suite C). CCHS-HMP requested that an appropriate waste hauler be hired to sort, identify and excavate the waste materials as soon as possible. Those materials not affected by the fire could be removed, but all fire debris and runoff must be removed and containerized by a trained waste hauler. Mr. Sarkis is to provide CCHS-HMP with documentation following cleanup. A list of waste contractors was provided to Mr. Sarkis.
11:41 HM1 departed scene.
12:18 HM1 arrived at CCHS-HMP office.

7/30/18
15:15 CCHS-HMP received a photo and manifest documentation from Mr. McCauley of the cleanup performed by Patriot Environmental Service in the afternoon on 7/27/18. Approximately 2100 cubic feet of fire debris were removed from the site.

8/9/18
08:40 Ian Williams of CCHS-HMP arrived on site at 2160 Elkins Way, Brentwood. The inspector observed the concrete pad, North curb and border landscaping in the affected burn area. Ian Williams met with Mr. Sarkis. Mr. Sarkis told CCHS-HMP that Patriot Environmental Service had personnel on site for 4-6 hours on 7/27/18. The company sorted and removed all burn materials, and excavated the top inch of soil from within the planted North border.

Additional Required Items: Bill of Lading, Request for Invoice, and Site Safety Plan
