County Maintenance	Contra Costa County Road Maintenance	O			

**REPORT:**

04/06/17

22:33 CCHS-HMP received the Sheriff Dispatch Page.

22:37 Ian Williams of CCHS-HMP phoned Sheriff Dispatch- County Road Maintenance was requesting Haz Mat for assistance with a possible transformer oil spill on Rudgear Road in Walnut Creek. CCHS-HMP was asked to contact Mike Giles at (925) 260-5305.

22:42 Ian Williams contacted Mike Giles by phone- CCHS-HMP asked to call Kevin Harvick of Road Maintenance on scene. Kevin Harvick contacted on scene- multiple power poles were down in the street between Grover Lane and Rudgear Road and Milton Avenue and San Miguel Drive. One power pole transformer possibly had spilled PCB containing oil onto the street. The power lines were currently still live, so the Walnut Creek Police and CCFPD were manning road closures and waiting on PG&E.

22:55 Ian Williams contacted Confire Dispatch by phone and was given onsite contact for the incident: Battalion Chief Mike Quesada. Confire staging at Milton Avenue and Grant Street.

23:15 Ian Williams departed residence for scene.

23:25 Ian Williams arrived at staging area and met with Battalion Chief Quesada. The power lines were still live- no visual on the transformer.

23:35 Ian Williams of CCHS-HMP contacted the PG&E Emergency phone number (800) 743-5000. No timetable for a maintenance crew was given.

04/07/17

00:06 Anthony Miles of PG&E arrived on scene.

00:16 Ian Williams and Battalion Chief Quesada spoke with Anthony Miles. PG&E needed to get a crew out to clear the downed power lines and investigate the possible spill. No timetable was known at that time-perhaps as late as 06:00. Anthony Miles stated that if any oil hit the ground, he would generate a spill report, and an on-call contractor would be called in to perform clean up.

00:26 Ian Williams contacted Kevin Harvick by phone.

00:35 Ian Williams departed scene.

09:35 Ian Williams contacted Shasta Vickers of PG&E and asked for a status update to the possible spill.

17:28 Shasta Vickers contacted Ian Williams by phone and left a message- no new spill information to report.

**Additional Required Items: Bill of Lading, Request for Invoice, and Site Safety Plan**
