

TABLE OF CONTENTS

Introduction

Revision History

Section A: Safety Program Management

A.1 Management Systems.....	A-1
A.1.1 Management Commitment.....	A-3
A.1.2 Ensure There Is a Management System for Safety Program Elements	A-4
A.1.2.1 Communication.....	A-4
A.1.2.2 Roles and Responsibilities	A-5
A.1.2.3 Evaluation	A-5
A.1.2.4 Modification to the Program.....	A-5
A.1.2.5 Goals and Objectives	A-5
A.1.2.6 Worker Feedback System.....	A-5
A.1.2.7 External Communications	A-6
A.1.2.8 Leading and Lagging Metrics	A-6

Section B: Human Factors Program

Chapter 1: Introduction

Chapter 2: Human Factors and Human Error

2.1 Definitions.....	B2-1
2.2 Classifications.....	B2-1
2.3 Approach.....	B2-3
2.3.1 “Swiss Cheese” Model of Defenses.....	B2-3
2.3.2 Microergonomic Approach.....	B2-3
2.3.3 Macroergonomic Approach	B2-3
2.3.4 Human and Organization Factors (HOF).....	B2-4
2.3.5 Error Management and Tripod-Delta Approach.....	B2-4
2.3.6 Safety Management.....	B2-5
2.4 General Approach of the Guidance Document	B2-5

Chapter 3: Evaluation and Minimization of Latent Conditions

3.1 Developing a Latent Conditions Checklist	B3-1
3.2 Applying a Latent Conditions Checklist.....	B3-3

Chapter 4: Process Hazard Analysis

4.1 Requirements of the Program	B4-1
4.2 Traditional Process Hazard Analysis	B4-2
4.2.1 First Approach	B4-2
4.2.2 Second Approach.....	B4-2
4.3 Procedural Process Hazard Analysis	B4-3
4.3.1 Procedural PHA Rather Than Traditional PHA.....	B4-3
4.3.2 Procedural PHA In Addition to Traditional PHA.....	B4-4
4.3.3 Consideration of Time Sequencing.....	B4-4

Chapter 5: Incident Investigation

5.1 Definitions.....	B5-1
----------------------	------

5.1.1	Human Systems.....	B5-1
5.1.2	Causal Factors.....	B5-2
5.2	Methodology.....	B5-2
5.2.1	Investigation of Major Chemical Accidents or Releases.....	B5-3
5.2.2	Investigation of an Incident That Could Reasonably Have Resulted In a Major Chemical Accident or Release.....	B5-4
Chapter 6: Procedures		
6.1	Procedure Management System.....	B6-1
6.1.1	Evaluating Current Situation.....	B6-1
6.1.2	Developing Procedures.....	B6-2
6.1.2.1	Initial Development.....	B6-2
6.1.2.2	Task Analysis.....	B6-3
6.1.2.3	Gaps and Overlaps.....	B6-4
6.1.2.4	Formatting.....	B6-4
6.1.2.5	Employee Participation.....	B6-5
6.1.3	Reviewing and Approving Procedures.....	B6-5
6.1.4	Maintaining Procedures.....	B6-5
6.2	Written Operating Procedures.....	B6-6
6.3	Maintenance and Safe Work Procedures.....	B6-8
6.3.1	Maintenance Procedure Elements.....	B6-8
6.3.2	Safe Work Procedure Elements.....	B6-9
6.4	Emergency Operating Procedures.....	B6-9
Chapter 7: Management of Change for Organizational Changes		
7.1	Forming a “Change Team” or “MOC Team”.....	B7-2
7.2	Defining the Existing Situation and Identifying Affected Areas.....	B7-2
7.3	Developing the Technical Basis for the Change.....	B7-3
7.4	Assessing the Impact of the Organizational Change on Safety and Health.....	B7-4
7.5	Completing the Management of Change.....	B7-5
7.6	Optional Considerations.....	B7-5
7.6.1	MOOC Screening Process.....	B7-5
7.6.2	Capturing Experience from Personnel.....	B7-5
Chapter 8: Employee Participation		
8.1	Development of the Written Human Factors Program.....	B8-1
8.2	Implementation of the Written Human Factors Program.....	B8-2
8.2.1	Chapter 3: Evaluation and Minimization of Latent Conditions.....	B8-2
8.2.2	Chapter 4: Process Hazard Analysis.....	B8-2
8.2.3	Chapter 5: Incident Investigation.....	B8-2
8.2.4	Chapter 6: Procedures.....	B8-3
8.2.5	Chapter 7: Management of Change for Organizational Changes.....	B8-3
Chapter 9: Training		
9.1	Identifying Training Participants.....	B9-1
9.2	Initial Training.....	B9-1
9.2.1	Basic Awareness Training.....	B9-2
9.2.2	Overall Human Factors Program Training.....	B9-2
9.2.3	Specialized Training.....	B9-3
9.3	Refresher Training.....	B9-4
9.4	Additional Training Considerations.....	B9-5

References

Section C: Root Cause Analysis and Incident Investigation

C.1	Definition of Major Chemical Accident or Release.....	C-1
C.1.1	Interpretations of Definition.....	C-1
C.2	Stationary Source Root Cause Analysis.....	C-2
C.2.1	Causal Factor Analysis.....	C-2
C.2.2.1	Methodology.....	C-3
C.2.2.2	Team.....	C-4
C.2.2.3	Report Content.....	C-4
C.2.2.4	Providing Investigation Reports to CCHMP.....	C-5
C.3	CCHS Root Cause Analysis.....	C-5
C.3.1	Single Point of Contact.....	C-5

Section D: Process Hazard Analysis/Action Items

D.1	Inherently Safer Systems.....	D-1
D.1.1	Inherently Safer Systems Analysis for New Covered Processes.....	D-4
D.1.1.1	Applying ISS Review-Chemistry Forming Phase.....	D-5
D.1.1.2	Applying ISS Review-Facilities Design Scoping and Development.....	D-8
D.1.2	Applying ISS Review-Criteria for Consideration of New Major Projects for Existing Units.....	D-9
D.1.3	Inherently Safer Systems Analysis for Existing Process Units.....	D-
10		
D.1.4	Process Hazard Analysis Recommendations and Mitigations.....	D-
12		
D.1.5	Feasibility.....	D-
13		
D.1.6	Completion of Recommended Action Items.....	D-
14		
D.1.7	Inherently Safer System Reports.....	D-
16		
D.1.8	Definitions.....	D-
16		

Section E: Safety Plan

E.1	Description of Your Stationary Source and the Regulated Substances Handled.....	E-1
E.2	Risk Management Program Elements.....	E-2
E.3	Human Factors.....	E-4
E.3.1	Process Hazard Analysis.....	E-4
E.3.2	Incident Investigation.....	E-4
E.3.3	Procedures.....	E-5
E.3.4	Management of Change.....	E-5
E.3.5	Employee Participation.....	E-6
E.3.6	Training.....	E-7
E.4	Root Cause Analysis.....	E-7
E.5	Process Hazard Analysis.....	E-8

10	E.6 Accident History.....	E-
11	E.7 Annual Performance Review and Evaluation.....	E-
13	E.8 Certification.....	E-
13	E.9 Security Vulnerability Assessment.....	E-
13	E.10 Safety Culture Assessments.....	E-
Section F: Safety Culture Assessments		
	F.1 Goals and Objectives	F-2
	F.2 Definitions	F-3
	F.3 Assessment Scope.....	F-3
	F.4 Best Practices for Implementing the Assessment	F-4
	F.4.1 Psychology of Question Development.....	F-4
	F.4.2 Delivery of Assessment	F-6
	F.4.3 Timing of Assessment	F-7
	F.4.4 Categorization/Breakdown of Assessment	F-7
	F.4.5 Frequency of Assessment	F-7
	F.4.6 Maintaining a Sense of Vulnerability	F-8
	F.4.7 Additional Biases.....	F-8
	F.5 Assessment Methodology	F-8
	F.5.1 Written Survey.....	F-9
	F.5.2 Interviews.....	F-10
	F.5.2.1 Preparation for Interview	F-11
	F.5.2.2 Types of Interviews	F-11
	F.5.2.3 Types of Topics in Questions	F-11
	F.5.2.4 Sequence of Questions.....	F-12
	F.5.2.5 Conducting Interviews.....	F-12
	F.5.2.6 Immediately After Interview.....	F-13
	F.5.3 Observation.....	F-13
	F.5.4 Focus Groups.....	F-13
	F.5.4.1 Group Dynamics	F-14
	F.5.4.2 Planning the Session	F-15
	F.5.4.3 Moderating a Focus Group	F-16
	F.6 Safety Culture Assessment Components	F-17
	F.6.1 Management Commitment and Leadership.....	F-17
	F.6.2 Individual Performance and Accountability	F-18
	F.6.3 Peer Perception and Accountability.....	F-18
	F.6.4 Safety Program Performance	F-19
	F.7 Continuous Improvement Strategy	F-19
	F.7.1 Effectiveness of Assessment.....	F-19
	F.7.2 Effectiveness of Program Against Stated Goals	F-20
	F.7.3 Guidance Document Review	F-20
	F.8 Documentation.....	F-20

Attachment A: Latent Conditions Checklist

Attachment B: CMA's Management of Safety and Health During Organizational Change

Attachment C: Inherently Safer Systems Checklist

Attachment D: Inherently Safer Systems: Guideword Matrix

Attachment E: Safety Culture Assessment Tools

- E-1: Example Survey Excerpted from Baker Panel Report
- E-2: Written Survey Development- Example from a Facility
- E-3: Example Interview/Written Survey Assessment Topics
- E-4: Observation Process- Example from a Facility
- E-5: Focus Group Development- Example from a Facility
